

## “**GROWING YOUR BUSINESS... SO, WHAT’S YOUR PLAN?**”

An opportunity to work ON your business rather than just IN your business.

### **“Adapting to Today’s Travel-Ban Environment”**

There was no amount of business planning that could have predicted the impact that this current COVID-19 crisis would have on our own businesses. And after 4-5 weeks of the travel ban there seems to be no immediate end in sight.

This has become our new reality, or at least for the immediate future. So... What’s Our New Plan? Many of us have already initiated alternative methods for stay connected and supporting current customers. But what of the immediate financial impact to our income streams? This may be a good time to be sharing additional ideas to further improve our business situations.

It’s been said... “Necessity is the Mother of Invention”. This certainly seems like the time to be rethinking our business model for the future, there must be a lesson here.

#### **Our Mission:**

**To provide a highly-organized, open-forum, think-tank type environment to discuss directly relevant strategies, ideas and suggestions to further KAIZEN and Grow Your Business.**

***KAIZEN - The Relentless Pursuit of Continuous Innovation and Improvement.***
